

## Chief of Critical Care Medicine

Reporting to the Chief of Staff, the Chief of Critical Care provides leadership to the Department of Critical Care Medicine, collaborates with leaders of other departments and serves as a liaison with senior hospital leadership. The Chief is responsible for the delivery of safe, high quality care, as well as the daily administration of the Department of Critical Care Medicine.

As Departmental Chief, the successful candidate is responsible for providing organizational leadership on issues related to critical care and for ensuring effective and efficient program operations in alignment with the hospital's strategic plan, mission, vision and values.

The successful candidate will provide leadership in clinical practice, professional development and quality improvement. They will be recognized by peers as an expert clinician, an effective leader and mentor, and a champion of quality, contemporary practice and program performance.

The successful candidate is an experienced physician with a reputation for their ability to work within an interdisciplinary team, delivering compassionate, patient focused care.

The ideal candidate will demonstrate:

- a desire to move the department forward
- a willingness to adapt and be flexible
- a drive for innovation
- a focused approach to improving operations, especially in times of crisis

### Qualifications

- Independent registration with the College of Physicians and Surgeons of Ontario
- Royal College Certification in Critical Care Medicine with Subspecialty certification ( Anesthesiology / Emergency Medicine/ General Internal Medicine / General Surgery
- Minimum of five years experience in a clinical leadership role
