PRESIDENT
Bojan Paunovic

March 1, 2019

SECRETARY
Karen Burns

Dear Canadian Institutes of Health Research Review Committee,

TREASURER
Peter Brindley

I am writing this letter in my capacity as Secretary of the Canadian Critical Care Society (CCCS), in very strong support of Dr. Jennifer Tsang's Meeting Grant application for developing a Canadian Community ICU Research Network (CCIRNet).

PAST PRESIDENT
Alison Fox-Robichaud

Dr. Tsang is a valuable member of the Canadian Critical Care Society and she sits on the CCCS Clinical Committee as a member. Generally, we see the role of the CCCS to attest to the importance of work and how we can contribute to knowledge translation. We are prepared to provide a partnership with in-kind contributions of \$2,000 over the period of the proposal. This will include:

DIRECTORS

Dominique Piquette

1) Helping the team to identify and liaise with relevant experts and knowledge users in the Canadian critical care community.

Babar Haroon

2) Working with the CCIRNet team to develop dissemination materials (newsletters, announcements) through our Knowledge Translation Committee and Clinical Committee, for provincial and national dissemination.

James Downar

3) Engaging a broader group of ICUs for larger implementation and evaluation in the future.

Frederick D'Aragon

Bram Rochweg

The CCCS is dedicated to promoting research, education and patient care in Critical Care Medicine. We believe that advocacy is an important role for the Society, and we speak vigorously for Critical Care in Canada. We have an active web and social media presence. Our official journal is the Canadian Anesthesia Journal. Ultimately, we will incorporate key principles into various national education initiatives, including training objectives for the Royal College, continuing medical education activities and review courses for our trainees. We will work with Dr. Tsang and her team to develop resources as the CCIRNet program of research evolves by inviting their input and feedback.

Claudia dos Santos

Srinivas Murthy

In summary, we believe that this program will ultimately have a high impact for our patients, their families, and the Canadian Critical Care community. Dr. Tsang is highly capable of leading this initiative!

This is an outstanding meeting grant application from an outstanding research team.

With Kind Regards,

Canadian
Critical Care
Society
